MR. JACKSON

MR. JACKSON

DEAR SIR—I have been taught to almost worship the name of Washington, and everything relating to the 4th of July, and when I see in every newspaper notices of the extent and magnificence of the celebrations in other places, I blush for my native town, which so far forgot itself, as to insult the memory of those great men who fought and died for our liberty, by neglecting to notice the day in a becoming manner, and who grudgingly appropriated fifty dollars to meet the expenses of the insult. It is this honest feeling of indignation, and a wish to prevent anything of the kind for the future, that has prompted me to address to you, for the Daily News, these remarks. You will think them rather severe, as coming from a lady, but you know we are privileged, and I have taken advantage of the right.

Yours, very respectfully, REBECCA.
TO THE MEN OF NEWBURY

What! call yourselves men! and ask ye for power?

Ye stone-hearted misers, ye hoarders of gold!
Who, if you e'er heard, have forgotten the hour
When your fathers gave all for the freedom ye
hold!

Go, chatter and grin o'er your ill-gotten store,
And count all your hearts as one worthless cent
more!

Or, where is the spirit they, dying, bequeathed?
Their offspring have bartered it—sold it for nought,
Built statues to slavery, around which they've
 gathered!

Bright garlands of roses brought fresh from the
plains,
To hide, for one hour, the golden-forged chains.

O, think you the African bondman when sold
To the white-featured slaves like yourselves,
hopes to feel
One agony less that his chained

Or forged of rough iron, or high-polished steel?
Believe it not, your ruler is forging the chain—
His heart, if he have one, will suffer the pain!

What now is the all-glorious Fourth of July
To those beggars of party who cringingly bow?
Those menials of office, who grovellingly lie
At the gate of their masters—say what to them

Is the mem'ry of Washington, Warren and Green?
It is nothing—their deeds are to such but a dream.

Go, hoard up your dollars—your silver and gold—
And when you are ask'd by the good and the
great,
Where now is your freedom? say for this it was

And I purchased, beside it, each honest man's hate.
And tell him your flag, with its stars set in blue,
Waves for virtue and honor—but waves not for

Go, preach to the ocean. Its depths where it rolls,
Let the voice of self-praise fly abroad o'er its

But talk not, ye dry empty husks of men's souls,
Of honor and glory; each breath of the breeze
Throws back in the teeth that each word is a lie

FRIDAY, AUGUST 6, 1847.

BY O. F. JACKSON, 94-THAMES ST.

SARATOGA SPRINGS, Aug. 2, 1847.

To the Editor of the Daily News:

I snatch a few moments of leisure to give you a synopsis of what is going on here.

The hotels are full, or nearly so. Many of the boarders of the principal houses, are lodging out. We have had rainy, cold weather for a few days, but again we have fine weather.

Herz and Siviore are here, and gave their first concert on Thursday evening last; they give their farewell concert on Tuesday evening next, when they leave for parts unknown.

Herr Alexander, the well-known magician, has been performing here, during the last week to crowded and fashionable audiences, and has been nightly hailed with acclamations of delight. He has been invited by the trustees of Ballston Springs to visit that place, which he will do during this week, when he starts for Newport; so let the good folks look out for him.

Lawyer David Graham arrived here last week; he is one of the three appointed to revise the new Constitution of the State of New York.

The grand Panorama of the city and Lake of Geneva is here, and is exciting universal admiration. It is a superb affair, painted by Berford, on 4,000 square feet of canvass, and is second to none ever before exhibited to the public.

I shall soon leave here, when you will hear from me again.

Yours,

J. C. G.

FROM VERA CRUZ.—The Washington Union of the 3d inst. says they have seen a letter from Vera Cruz dated the 16th of July, addressed to this city. It states that Gen. Pierce would leave Vera Cruz on that evening. A foreign merchant had informed the writer that an express had just arrived, but had lost every letter on the way, with the exception of a small one from Puebla, dated the 7th instant, which states that Gen. Scott has now 11,000 men with him; that Tornel is at San Martin; and that Gen. Scott is for pushing on to the city, but Mr. Trist is disposed to wait until he has seen the commissioners. About 300 troops of Louisiana volunteers came into the city on the evening of the 15th from the camp, to remain, which makes about 500 effective men, but we daily hope (says the writer) to receive more. The city is not near as sickly as it was, and it is thought we shall have but little more this season. The collector has paid over for the train between \$50,000 and \$70,000 in cash, and eight drafts on Puebla from his department.

MEXICAN PRIVATEERS.—We find the following important notice in the Gibraltar Chronicle of the 23d June:

We have been shown the copy of an order issued by the Emperor of Morocco to his governors and agents, authorizing the seizure and confiscation of all privateering vessels entering the ports of his Empire, that are fitted out against the commerce of the United States of America.

In a letter dated Canton, April 26, 1847, a correspondent of the N. Y. Commercial writes: "It is useless to speculate upon future events in China, for no one can tell what will take place; but I think there can be but little doubt that the whole political and religious system of the Chinese must soon crumble to pieces; but whether this will take place gradually and happily, or in tremendous convulsions, time only will show."

QUEEN FOOT RACE.—At the Indian village near Batavia, N. Y., John Steeprock, the Indian gentleman who did not quite win the mile race at Hoboken, ran a mile against two good horses in a wagon, and beat them by six rods, time four minutes and forty seconds.

The nicest Fourth of July toast we have seen this year, was the following given at a celebration in Ohio, by J. L. Baker: "My country-women—may their breasts ever prove a shelter to the American soldier."

Wm. T. Jones of Washington, who was arrested a few days since and held to \$5,000 for robbing the mails, has just left the city it is said.

The U. S. frigate Macedonian, with two others for the Irish, arrived at Cork on the 15th ult.

"CITY" ITEMS.

Row.—A row was kicked up on Long Wharf on Wednesday evening, between Geo. Wilson, a resident on the wharf, and Sam Hicks, of Tiverton. Hicks went into Wilson's house, and after remaining there a short time, went off. Wilson soon followed him, and accused him of stealing a shawl. This Hicks denied, and after some words, Wilson attempted to strike him, but Hicks fended off the blow and knocked his antagonist down. Wilson then went off, but soon returned with a hatchet, with which he went about of Hicks, and succeeded in hitting him two or three times on the head, but inflicted no dangerous wounds. Through the intervention of bystanders, they were separated, and Wilson was locked up.

Scow Party.—The editor of the Fall River Monitor, indignant because they can't have a Chinese Junk there, comforts himself with reflecting on what grand times they have at what he terms scow parties. We should really like to attend one of these entertainments. He says:

They resolve on a Scow Party—the first thing to be done is to lay aside all the stiffness—(the ladies are of course not expected to do this)—fling formality to the winds. Untrammelled by the useless and restraining forms of fashionable society, some eighty or a hundred embark in one of these ugly "Junks." Scows, and proceed some two or three miles on our living waters before mentioned, and to some enchanting place prepared for the occasion. Every one is bent on having a good time, and, of course, are bound to have it. The Sweeney-Winey Band—now don't go to asking us anything about that—it's a local institution, and more, compares with the party, and we shan't tell "outside barbarians" anything about it—it is on hand, and as every one dances that goes to the party, it soon pitches its pipe" and away they go; not exactly like Hecate and the three witches around the chaldron—but around the trees and bushes. Neither singing.

"Black Spirits and white Red Spirits and grey but some merry thing in harmony with the instruments. The best will tire, and out of breath, the players and the played for, sit under the green branches to recruit for another trial. May be they have a song accompanied by the guitar; but guitars are rather out of place there, and should be avoided if possible. The edibles are not forgotten and soon fair hands spread them. A clambake has also been prepared and the smoking fish are already on the table. An hour or so is spent in satisfying the "inner man," and the more dancing and singing, and swinging and racing among the trees, finishes the day, and all embark again in the Scow to return to their homes, each soul one round in the ladder nearer heaven than it was in the morning.

How STRANGE.—The Philadelphia Ledger relates a scene which occurred at the principal hotel at Cape Island last week, which forcibly illustrates an idea that we have before advanced,—that the ladies, as a general thing, associate as freely with men who have disgraced themselves by some low mean act, as with those whose character are irreproachable, while at the same time, let even a surmise go forth against the character of one of their female associates, and they cut her acquaintance at once. The Ledger says:

The wife of a respectable merchant of this city finding, on returning from the tea table to her chamber, a young lawyer, also of this city, on terms of rather close intimacy with the maid servant, who had been left in charge of the lady's children. The indignant wife seized the intruder by the collar, and after raising the whole house by her outcries, dragged him to the great hall, and in the presence of some two hundred boarders made his offence known. Not the less singular part of the adventure was, not two hours after he was mixing with much favor among the ladies in the evening hop. Such is the forgiving nature of woman.

We have received a pamphlet through the post office, of about thirty pages, entitled "Triumphs of 'Young Physic,' or Chrono Thermal facts, by William Turner, Esq., A. M., M. D." This pamphlet is made up from certificates of wonderful cures performed by the Chrono Thermal mode of treatment, which we know as much about as we do of the men in the moon; and after reading this pamphlet through we should be about as wise in regard to its principles as we are at present.

We must beg "Reliance's" pardon for having neglected publishing her address "to the men of Newport" so long. It is not too late now, however, and a republication of it just before the 3d of July, 1847, we think would be attended with a great effect.

The editor of the Philadelphia Chronicle says that pennyroyal won't keep off the mosquitoes, as he knows to his sorrow. He

tried it one night, and didn't know himself next morning.

The weather for a few days past has been remarkably fine. Yesterday it was as cool as a pair of disaffected lovers, and a good deal more comfortable.

ATTENTION DANCERS.—A party is to be given at Masonic Hall this evening, the first of a course, by Mr. Rider. Shaw's Band, of Boston are to make the music, and no doubt it will be a brilliant affair.

It commenced raining early last evening, and about ten o'clock it literally poured, the wind at the same time blowing violently; and this was kept up all night to the hour of our going to press. The storm must have been severe on the Sound, as the Bay State has not yet arrived.

P. S.—The storm was much more severe than we had any idea of when we penned the above. The awnings from one end of Thames street to the other, are torn to rags, with but few exceptions. The Massachusetts lays at anchor inside the break-water off Fort Adams. We are told that two of the yachts at anchor in our harbor have gone ashore in the cove; the others have dragged their anchors considerably a distance.

A schooner is at anchor close by the Lime Rocks, to whence she has dragged her anchor.

The Perry did not leave at her usual hour for Providence, on account of the storm.

Wind, North.

DUELING.—The death of Geo. C. Dromgoole is thus described by an eye-witness.—No more fruitful homily could be offered upon the abhorred and murderous practice of duelling than is given in this brief extract.

"But his death! we were present at it, and never may we witness such another.—That subject—so long kept sealed up by himself—so long untouched by family or friend—the murder of his school companion and neighbor, was at last broken by himself. 'I could not help it,' said he, as his eyes glared upon us, and his breathing became painful from its quick and audible action. We knew to what he referred, and endeavored to direct his thoughts into other channels. In vain. 'I could not help it; I was forced into it; could I help it?' All this was, in a duelling sense true. He had every excuse a man could have to fight; but when so assured, he exclaimed wildly, 'It will not do—I murdered him—I see him now—I have seen him as he lay dead on the field, ever since I slew him. My God! My God!' And muttering these and like sentences, with a shriek such as I never heard mortal utter, he died!

Last Sunday, as the rector of a church up town, says the N. Y. Dispatch, was about to perform the evening service, the sexton handed him a note, which, as it commenced in the usual form of an application for prayers, he read aloud, as follows: "The prayers of this congregation are requested for a young man who has gone to sea—the elephant."

A MIST.—Mary, I am glad your heel has got well.

'Why?' said Mary, opening wide her large blue eyes with astonishment.

'Oh, nothing,' says Mag, 'only I see it's able to be out!'

Do not enter a room suddenly, says the Spirit of the Age, where you know there is a young lady and gentleman sitting, busily engaged in fanning a flame. Of course not; if you do, you will stifle the flame, and be sure to meet with a cool reception. Isn't it so girls?

DORCHESTER, Mass., June 15.
Dr. F. Brown—Dear Sir—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in, when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed. It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, supposing there is no relief. I now value them so highly I keep them in the house, and use them in my family, as I consider them the best, pleasantest, and most thorough medicine now in use, removing all impurities carrying off all bile, without weakening the system, or being obliged to change your diet.

After showing this to any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which it will afford me great pleasure to do.

JONES'S SOAP

Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan; Why, 'twill requite the love of any man! These freckles, too, you know they'd quickly fly If Jones's Soap you'd use; come once—do try—It costs but fifty cents, and I am told It's worth, aye, doubly worth, its weight in gold.

Persons who have had no faith in it, have been astounded at the wonderful effect of Jones's—that is, the genuine Jones's Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Radway's Chinese Medicated Soap is superior to all imported French, Berlin, and other Soaps. Tan, sunburn, pimples, blotches, pustules, ring-worm, salt rheum, erysipelas, rash, scurfy, the bites and stings of mosquitoes, rough and discolored skin, pale and sickly complexion all yields to the curative propensities and beneficial influence of this valuable and delicious emollient. In fact, be the complexion ever so disfigured, or the skin discolored or diseased, Radway's truly excellent medicated soap never fails in rendering the skin soft, smooth, fair, sweet, clear and healthy. Many persons suffer great annoyance during the summer season from the troublesome insects mosquitoes. Those persons, subject to those annoyances, by applying Radway's soap to such parts of the caudle as is bitten, it will instantly alleviate the pain, subdue the irritation and instantly remove every vestige of blotchiness. For general toilet soap it is unequalled, it proves an agreeable perfume, and is entirely free from all poisonous admixtures, or irritating ingredients. It is much cheaper than any other medicated soap, and is acknowledged by thousands to be superior to all others ever offered to the public. No Chinese Medicated Soap is genuine unless signed, R. G. Radway. Be sure to ask for Radway's Soap, and take no other. Sold for 12 1/2 cents per cake, by Dr. R. J. Taylor.

Dear Sir—I take pleasure in communicating to all whom it may concern, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might some day die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1846, when I added another cold; my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side; I sweat very much nights, raised considerable blood during the winter, and could not speak aloud for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders; general debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with the Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefited himself, advised me to take

WISTAR'S BALM OF WILD CHERRY. I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balm until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balm of Wild Cherry saved my life.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Lotion, and be put off with nothing else.

WARREN, August 22, 1846.
Dr. Boardman—Dear Sir—Now being about leaving for home, I am able to give this favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our

race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unlit for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

AGAINST using Common Prepared Chalk.
They are not aware how frightfully injurious
it is to the skin how coarse, how rough, how sal-
low, yellow, and unhealthy the skin appears af-
ter using prepared chalk! Besides it is injurious, con-
taining a large quantity of lead!
We have prepared a beautiful vegetable article,
which we call JONES' SPANISH LILY
WHITE. It is perfectly innocent, being purified
of all deleterious qualities; and it imparts to the
skin a natural, healthy, alabaster, clear, living
white; at the same time acting as a cosmetic on
the skin, making it soft and smooth.
Dr. James Anderson, Practical Chemist of Mas-
sachusetts says:—"After analyzing Jones' Span-
ish Lily White, I find it possesses the most beau-
tiful and natural, and at the same time innocent
white ever saw. I certainly can conscientiously
recommend its use to all whose skin requires
beautifying."

The American Improved Hygienic Vegetable
Medicine.

SAFE, CHEAP, AND EFFECTIVE.
This medicine makes no pretensions to miracu-
lous powers, the raising of the dead, or to in-
crease and ascend the daily, and hourly, af-
ter the most approved method of the times; but
bases all its claims upon plain common sense prin-
ciples, as a simple aid to nature in restoring the
human system to its proper tone and action, when
by carelessness or unavoidable circumstances it has
become deranged or debilitated, and asks simply a
faithful trial as a test of its curative properties.
During the last twenty years it has worked its
way into extensive use, wholly upon its own merits,
by commendation from individual to individual,
not having been advertised for more than twelve
years till within the past few months—save occa-
sionally in a Journal of which the present prop-
rietor is Editor. The increasing demand, however,
has measurably compelled greater attention to its
business, and agencies are now being established
throughout the country.

A faithful trial of a half dollar or dollar pack-
age is almost certain to secure use in every family
where it is introduced, where medicine is needed.
The undersigned has used it in his own family for
more than fifteen years—has knowledge of its ap-
proval use in many others, (for periods varying
from months to fifteen or sixteen years,) as their
only medicine, and knows it to be valuable in most
of the complaints incident to the human system.
But a long or extravagant commendation is not
designed or needed here. Ten thousand mere as-
sertions in its favor will not make it valuable, or
satisfy reasonable persons without a trial; for the
proof, after all, must lie in the use of it. Try it,
then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this
article before the public, at the request of his nu-
merous customers, among whom are physicians and
citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.

The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an article
in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
any animal grease or essential oils. It cleanses the
pores of the skin, causes a healthy action in the blood
vessels, nerves, &c., which feed the hair, thereby
preventing baldness and GREY HAIR.
It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, disposes the hair to
curl, and changes the harshest hair into the most
soft, glossy, and healthy state, also imparts to it
a darker color, and the free use of it, both on the
skin and hair, in a most healthy and luxuriant
state until the latest period of life.

Ladies will find the Hyperion a great addition to
the toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which, when moist with the fluid,
can be dressed in any required form, so as to
preserve its place, whether plain or in curls.
When used on children's heads, it lays the founda-
tion of a good head of hair.

DR. BANNING'S PATENT LACE!

An Immediate Relief to Incipient Consumption, the
Bronchitis of Public Speakers, Puffing
of the heart, Dyspepsia, Spinal Weak-
ness, Piles, Protrusion, and Diseases
of Women, without Medicines.

THIS instrument has been examined by Drs.
Mott, Rodgers, Francis, and Griscom of New
York, the faculty of Pittsburgh, Hartford, New
Haven and Middletown, and has obtained for itself
their favorable testimony. The following will
show what kind of testimony might be produced
in many cases:
Middletown, June 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my
case, I will merely say, that I have been sick since
I strained my breast and loins in May, 1836, from
that time continued to grow worse, when in the
fall of '39, I abandoned business, and have not
done any thing since. I suppose from all I could
learn about my case—frequently raising blood,
coughing very hard and expectorating profusely,
deriving no benefit from my physicians, and all
medicines recommended to me, that my case was
hopeless. Last winter my brother told me he had
heard a good account of Dr. Banning's Lace in
such cases, and was anxious that I should try it;
accordingly I procured one from you, and since I
began to wear it, my breathing, which was very
short and laborious, has become easy and natural;
the pain and fluttering or palpitation of the heart
has subsided; cough and expectoration greatly
lessened, my limbs which were exceedingly pain-
ful have become useful, so that I can walk com-
fortably. I am able to shave myself with comfort,
which for many years I have not been able to do.
The piles, which have troubled me for nine years,
are nearly eradicated. I work some in the garden,
and am able to ride 4 miles at once with pleasure
and benefit. Yours, &c. WM. BANNING.
Dr. G. M. Boardman,
Middletown, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries re-
specting the effect of Dr. Banning's Lace in the
case of my wife, I will state that for twenty years
past, she has been afflicted with a complication of
complaints to which females are subject. She has
tried all the physicians and all the medicines re-
commended for such complaints, without regard to
expense, and found only temporary relief. Her most
distressing complaints, palpitation of the heart,
oppression and a sense of great weight at the
pit of the stomach, prolapsus of the womb, &c.,
were believed after wearing the lace two hours, and
she has continued to improve daily. With this
view of the case I cannot use language strong
enough to convey my approval of the instrument.
aug. 25th.

STEPHEN BROOKS, JR.
Providence, Feb. 26, 1846.

Doctor Boardman, Dear Sir—I now take my
pen to inform you that my wife's health has im-
proved very fast for the last two weeks from wear-
ing one of your Laces. She has been out of health
about two years and has worn a different Supporter
from yours, which had only two pads. She re-
ceived some benefit from that—but it would not
produce a cure. But now I can say with pleasure
that she is as smart as any of the young girls in the
neighborhood. She can now run up and down
stairs as fast as I can, and I feel so well pleased
with it that I hardly know how or what to write.
But one thing I do now, that she has been under
the care of seven Doctors in one year—and wear-
ing your Lace two weeks has or will do the cure
in a very short time. I want to write more, but I
have no time. I am truly, your friend and well
wisher.

Doctor Boardman, proprietor of Bannings cele-
brated Patent Body Brace, for this state, has taken
rooms at No. 8, Broad street, where he may be con-
sulted, free of charge. He is enabled to treat, suc-
cessfully, cases of Rheumatism, Neuralgia, Head-
aches, Deafness, loss of Voice, Bronchitis, Weak-
ness and curvatures of the spine, and chronic dis-
eases generally. He is enabled to refer to numer-
ous cases in Providence, and this town. aug 28

MR. ABRAHAM VANDERBEEK, of 98 A-
venue D, New York, certifies that his hair
was entirely bald on the top, and by the use of
two 3s. bottles of Jones' Coral Hair Restorative,
he has a good crop of hair, and will soon have it
long and thick.

Mr. William Jackson, of 80 Liberty street, Pitts-
burgh, Pa., certifies: On the 3d of February,
1847, that Mr. Thomas Jackson's head, on the top,
was entirely bald for 15 years, and that by
using two 3s. bottles of Jones' Coral Hair Restor-
ative, the hair is growing fast and thick, and will
soon be entirely restored.

Gray Head! Gray Head! Read—I hereby
certify that my hair was turning gray, and that
since I have used Jones' Coral Hair Restorative,
it has entirely ceased falling—is growing fast,
and has a fine dark look. Before I used Jones' Coral
Hair Restorative, I combed out handfuls of hair
daily. WM. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer at Fulton-st., had his hair

thing else.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been
found highly beneficial and of great use to la-
dies who have been afflicted with superfluous hair,
principally when its growth has been confined to
the upper lip and side of the face, giving a mascu-
line turn to the whole features. When used with
proper care, and according to the directions, it will
be found to be a great addition to the toilet, as the
use of any sharp instrument is entirely avoided,
and the hair is removed in five or ten minutes af-
ter its application.

This composition is infallible, and warranted to
remove superfluous hair. After numerous trials, I
have received certificates of success which cannot
be contested. For sale, wholesale and retail, at

IT is now about ten years since this medicine has
been introduced to the public, and it stands un-
rivaled in its effects, bearing the test of the severe
scrutiny of all classes, both friendly and unfriendly.
It is but for one purpose—for the use of Mothers
who have to pass through a sea of affliction in
giving birth to mankind, not to be described. It
is to you we make an appeal. It is for your es-
pecial and general good that you should make use
of one bottle of the MOTHER'S RELIEF before
confinement. Then you can approach the par-
turtory chamber without feeling as if you were go-
ing to the chamber of death. You may rest as-
ured it will still all fertile and nervous affection.
It soothes and shields from irritation and by its
peculiar properties it destroys the cause of her-
morrhage or inflammation that so often attend and
follow the hour of parturition. It causes sweet
and natural rest, and at last facilitates the birth,
so that Mothers have not to pass through such
excruciating pain and distress. The Mother's Re-
lief may be depended upon in all cases of threat-
ening abortion where it is possible to be prevented
in cases of Spasms, &c. causing frequent alarm,
from two to three doses will give immediate relief.

As the subject is one that cannot with propriety
be fully discussed in this public manner, we invite
all who feel interested to call on our agents (most
of the respectable Druggists in the United States,) or
on the manufacturer, and they will be furnished
with a pamphlet in which they will find all the
facts to form a correct opinion of its merits, and
also the opinions of many physicians of eminence,
and of persons who have become acquainted with its
beneficial effects.

CAUTION TO PURCHASERS.—Ask for BART-
HOLICK'S Mother's Relief. None is genuine un-
less our signatures are found within the wreath
of the direction that is pasted on the bottle, signed
with our own hand, and over the neck of the
bottle is a facsimile of our own hand writing also.
By attending to the above directions, no one need
be imposed upon. All orders will be promptly
attended to.

Miracle.

ON the 4th of August, in the year 1813, a sin-
gular scene occurred in the Royal Scientific In-
stitution of France. The aged, white headed
President, his head bare, his arms outstretched, his
face radiant with smiles, (for science was triumph-
ant,) and his voice with gratulatory tone, deliv-
ered the following report:

"We are astounded at this singular preparation.
Where indeed will science stop! Here we have
a preparation made in the form of a beautiful piece
of soap, which we know by actual practice, to
cure every cutaneous eruption, every disfigure-
ment of, and even discolored skin! Where will
its magic and singular power cease? The Negro,
the Creole, the Yellow Race of the East, and the
Red Man of the far West, are alike under the
influence of its extraordinary powers of clearing yel-
low or discolored skin, and making it white and
beautiful, and of changing the color of dark, or
black, or brown skin." (Here several persons
were brought forward by the President, who had
used it, in proof of his assertion.)

There are probably few persons of intelligence,
who, after reading the above, will doubt the qual-
ities of JONES' ITALIAN CHEMICAL SOAP,
in curing Pimples, Blotches, Salt Rheum, Scoury,
Erysipelas, Sore Heads, Old Sores, Beard
Barber's Itch, Chapped and Tender Flesh, Freck-
les, Tan, Sunburn, and changing dark sunburn
or yellow skin to a pure, clear white, as smooth
and soft as an infant's, and in fact every kind of erup-
tion and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct. 1841.]
One of our subscribers, Mr. H. Leonard, in-
forms us that he has been cured of old, scaly Salt
Rheum, of eighteen years standing, on his head,
fingers and hands, by a cake of an article much
advertised lately—we speak of Jones' Italian
Chemical Soap. He also informs us that he has
tried its effects on his female slave, Rose, much
marked with sun spots, and he found in two
weeks her skin much clearer and whiter.

James Ekham, a painter in Jersey City, was
cured of carbuncles and pimples, which he was
afflicted with for many years, by part of a cake of
Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for
Jones' Italian Chemical Soap; and perhaps, as
many who have been cheated with counterfeits,
will be long much discouraged to try the genuine,
we say to such, try this once—you will not regret
it; but always see that the name of T. JONES
is on the wrapper. For sale in Newport by

If you are afflicted with Bronchitis, Asthma, Ob-

ing, sore throat, hoarseness, first
stages of consumption, and
all other Pulmonary
or Lung Com-
plaints, try

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable,
and balsamic, and are the invention of an emi-
nent physician, from whom the proprietor has pur-
chased the recipe. It is certainly worth its weight
in gold, but is put at a price to be within the reach
of rich and poor.

Names and residences of persons residing in the
city of New York, who have been cured or bene-
fited by Dr. Emanuel's Balsamic Cough and Lung
Jelly, when it was prepared in another form:

Mr. Hiram Aments, 113 William-st., N. Y., had
for some time, a dreadful pain in his side and chest,
with a hacking cough, and shortness or difficulty
of breath. He used part of a bottle of Dr. Emanu-
el's Balsamic Lung and Cough Jelly, which per-
fectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very
obstinate cough and cold. She tried every other
remedy in vain, and Dr. Emanuel's Balsamic
Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful
hearts of these respectable citizens of New York,
appeal to your hearts and understandings, if you
are afflicted with any pulmonary complaint,
cough, cold, &c.

Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange county, April 19th, 1846.

Dr. EMANUEL,
Dear Sir—You may perhaps think my state-
ment almost incredible. My reason for fearing
so is the fact of your never recommending your
Jelly for the cure of confirmed consumption, but
only in its primary or first stages. I have every
reason to believe that I was in his last stage; my
physician told me so; my friends told me so; as
well did my symptoms, for they were truly alarm-
ing; and I felt fully convinced, that unless relief
was obtained, I must soon be consigned to the
narrow confines of the silent grave. But by the
timely use of your remedy, I still live, and again
enjoy my former good health. I had, indeed, dear
sir, all the alarming symptoms you speak of as
forming consumption in its worst stage; but by
the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.
And now, reader, having given you a plain
statement, let me conjure you to pause, ere it is too
late; try this Balsamic Lung Jelly—try it. I have
put its price to you as low as I can afford; if you
use it, and succeed in curing yourself, I shall have
the gratification of having rescued another from
consumption; and I hope, in return, that you will
not withhold from me your name, and a statement
of your cure.

MY EAU LUSTRAL HAIR RESTORATIVE.
This universally approved and admired article,
free from ardent spirits, pungent essential oil, and
other destructive materials, cleans the hair ex-
traordinarily, renders it beautifully bright, and imparts
to it the delicate fragrance of the flowers. Hair
washed with this Extract soon becomes pleasingly
soft and luxuriant in its growth, and it will pos-
sibly bring in new hair on bald heads by its use;
and hair that has been made harsh, and is turning
gray or falling out, by the use of spirit or other im-
proper preparations, will soon be restored to its
natural color and brilliancy, by a few applications
of the Eau Lustral.

It is a preservative against baldness, and an
infallible cure in all affections of the skin on the
head, as dandruff, and for preventing the falling
out of the hair and turning gray.

Evidence.—Nature is an inexhaustible mine, in-
which experience and study will always find room
to excavate; it is that source alone which pro-
duces all that man calls invention, and which he
would do better, perhaps, to name adaptation.

Coggeshall & Bliss' Patent Cook- ing Range.

THE subscribers have just taken out letters pa-
tent for a new and beautiful cooking Range,
to which they invite the attention of the public.

This Range may be set in the ordinary fire place,
and by a simple, though effectual apparatus, the
flue of the chimney may in an instant of time,
be opened or closed, so that the heat in summer
and the flames from cooking at all times may escape
through the chimney.

Wood or coal may be used, and the evil of smok-
ing chimneys is completely remedied by its in-
trusion.

The Range is so constructed that it takes up but
a small space, and yet it contains all the qual-
ities of those which take up double the amount; and it
being constructed as it is, the Boilers are brought
in close proximity with the fire, and it consequent-
ly boils much sooner, and with a smaller amount
of fuel, than the old fashioned Ranges, or cook
stoves. It contains five boilers, four of which may
be converted into two, by taking out a cross piece,
and thus will admit of two large boilers at the
same time. It also contains and Oven 12 inches
wide by 21 deep, which cannot be surpassed for
